"Anchalika Kijkanakorn" on Pure Blue Foundation.

- At the core of AHG, we respect the community we operate in and we preserve the environment where we are.
- Pure Blue Foundation was found 17 years ago, the same day AHG was found. We pledge to be a part of the solution.

SOME OF THIS YEAR'S PROJECTS

REKINDLED CORAL — Our staff recently joined forces with the tireless team at Coral Village to help them replenish damaged and bleached corals of the Chonburi coast. We snorkelled alongside the experts from Pure Blue Foundation and assisted with the restoration and replanting of damaged coral, as well as gaining invaluable insights on coral transplantation from the professor of marine science Burapha University.

CARE IN THE COMMUNITY — We've teamed up with the brilliant Foundation for the Welfare of the Mentally Retarded in nearby Klong Toey to support initiatives that foster opportunities for young children with mental health issues and learning disabilities from disadvantaged backgrounds. In October we hosted a lunch for the children and organised a series of engaging and educational activities, including needlework and jewellery-making classes. We also made a donation to support the teachers and the team.

LIFE IN EARTH — Not far from the Thailand-Myanmar border, Pachee River Wildlife Sanctuary is a paradise for nature lovers, bird watchers and trekkers. To ensure the ongoing upkeep and protection of this verdant gem, the akyra Thonglor Bangkok staff recently volunteered to construct earthen buildings within the sanctuary to provide a place for relaxation and work for the Nongyao Forest Protection Unit staff. They can now unwind in comfort while continuing their valiant efforts to conserve the country's untouched nature.

SOME OF THIS YEAR'S PROJECTS

SAY SO LONG TO SINGLE-USE

PLASTICS — As one of the only single-use plastic-free hotel groups in Asia by 2020 well underway, we're inviting you to join us in banishing pesky plastic bottles and bags from our lives. To help you on this honourable adventure, we supply each room at every property with our signature stainless steel water bottle and recycle bag, which you can use wherever you got throughout your stay. You can even buy both items to take home so the memories of your stay and motivation to create a better world linger longer.

PLANT FOR THE FUTURE — Only a 25-minute drive from Aleenta Hua Hin Resort & Spa, visit Thailand's first marine park, Khao Sam Roi Yot and explore some of the Kingdom's most incredible mangroves. Work with park rangers to help reforest this incredible ecosystem and sustain the lives of the countless marine species that call it home. There's a small cost to cover the transfer and a donation of THB30 is required for every tree planted, which goes directly to our Pure Blue Foundation to fund further environmental projects.

TURTLE-Y WORTH IT —

Rescue endangered turtles and release them back into their natural habitat in a rich, rewarding and immersive experience exclusively available to Aleenta Phuket - Phang Nga Resort & Spa. You can also combine this conscience-cleansing activity with culinary indulgences and sheer barefoot luxury for an unforgettable vacation along the tropical shores of the Andaman Sea.

HOLISTIC HERBS — A rich variety of more than 50 herbs are planted, nurtured and cultivated at Aleenta Hua Hin Resort and Spa's dedicated organic farm. Although these are used by both the chef to prepare exquisite Thai dishes and our mixologists to add unique infusions to cocktails, they also feature frequently in our Ayurah Spa treatments. Expect to find everything from coriander to galangal and limes to chillis in the in-house oils and lotions used to during our signature spa treatments, which can be booked directly with reception.
